Director's Graduation Speech 2025

Distinguished guests, esteemed faculty, families, and above all, our extraordinary graduates,

Today, we gather in the warm heart of Namibia to celebrate not just a milestone, but a calling. Last night, I beheld how each of you, in your crisp uniforms and radiant smiles, embodies the hope and strength of our nation. You have joined the noble ranks of nurses, as guardians of health, healers of pain, and pillars of our communities.

Nursing is not merely a profession. It is an act of courage, compassion, and unwavering dedication. You have endured sleepless nights, challenging exams, and the emotional weight of caring for others. You have learned to listen, to comfort, to advocate, and to heal. You have become the hands that soothe and the hearts that uplift.

In Namibia, where our landscapes are vast and our communities diverse, the need for skilled, caring nurses has never been greater. From the bustling streets of Windhoek to the quiet villages along the Kavango, you are the lifeline that connects our people to

wellness and dignity. Your work will echo in the laughter of healthy children, the gratitude of recovering patients, and the peace of families reunited.

Remember, you are entering a field where every day brings a new challenge and a new opportunity to make a difference. You will be called upon to serve with empathy, to lead with integrity, and to inspire hope even in the face of adversity. The oath you took last night, is not just an ordinary act—it is a symbol of trust, responsibility, and the promise to care.

As you step into your future, hold fast to the values that brought you here: compassion, resilience, and a commitment to lifelong learning. Continue to seek knowledge, to innovate, and to advocate for those whose voices are seldom heard. Namibia is counting on you—not just to treat illness, but to champion health and humanity.

Graduates, you are the heartbeat of our healthcare system. We are immensely proud of you. Go forth and shine, for you are the future of nursing in Namibia.

The Meaning Of The Lamp In The Pledge Of Service

The lamp in your hand is the symbol of those who keep vigil over the sick. It is the symbol of the philosophy of the nursing profession that those who nurse should be a light unto others.

It indicates that you are prepared to develop your profession and to practice it in the light of the science which are the building blocks of medical and nursing sciences.

It confirms that you have prepared to carry out your professional acts in accordance with the legal and ethical codes of your profession and that you are prepared to care for man in his uniqueness with knowledge and compassion.

It is the symbol that indicates that you are prepared to be the following for those who need your help:

- The eyes of the blind who are sick
- The power of movement of those who cannot move
- The hands of those who do not have the strength to care for themselves
- The comforter of those who are alone and grieve
- The nourisher of those who cannot eat
- The protector of those who are helpless and those who are vulnerable
- The mind of those who are unconscious
- The one who has to ward off the hazards threatening the sick
- The intermediary between the doctor, other members of the health team and the patient
- The advocate of those who have health problems

It confirms that you as a professional nurse are prepared to submit to the discipline of your profession. It serves as proof that you are prepared to serve as a role model of your profession.

I give you the reveille of nursing: “LET THE OIL OF KNOWLEDGE AND OF LOVE ALWAYS ENSURE THAT YOUR LAMP BURNS BRIGHTLY.”
